Dear Landfill Owner/Operator:

SUBJECT: DISPOSAL OF TREATED WOOD WASTE

Several weeks ago, we sent you a letter (enclosed) providing guidance on the implementation of Health and Safety Code section 25150.7 (Assembly Bill 1353 [Matthews], Ch. 597, Stats. 2004) related to the management and disposal of certain treated wood waste (TWW). Our letter did not specify those landfills already able to accept these types of TWW.

That section, as added last year, allows any composite-lined landfill that can accept designated waste to also accept TWW for disposal in the composite lined portion of the landfill, as long as the TWW is not subject to hazardous waste management requirements under federal law. As your composite-lined landfill is regulated by waste discharge requirements (WDRs) issued for discharges of designated waste or TWW, your facility, «NAME», can now accept these types of TWW without amending its WDRs.

Please address questions regarding this letter to the staff listed below:

- State Water Resources Control Board: Mr. Joe Mello, jmello@waterboards.ca.gov, (916) 341-5622
- Integrated Waste Management Board: Mr. Robert Holmes, rholmes@ciwmb.ca.gov, (916) 341-6376

Respectfully,

Original Signed by:

James George Giannopoulos, P.E.
Assistant Division Chief
Division of Water Quality
State Water Resources Control Board

Original Signed by:

Howard Levenson, Ph.D.
Deputy Director
Permitting & Enforcement Division
Integrated Waste Management Board
